Israel, Tel Aviv  
Nissim Aloni 19, Office 1

The program is based on scientific work in the field of integrative psychotherapy «Personal Source Code in Personal Development and Business»

The scientific work focuses on the study of human management processes of personal intellectual, emotional, and volitional resources (IQ, EQ, VQ)

#### INTELLIGENCE QUOTIENT

This area includes ideas, innovations, insights, cognitive flexibility, and non-standard thinking

#### EMOTIONAL-INTUITIVE INTELLIGENCE

It is responsible for the ability to distinguish and transform one's feelings and the feelings of others. At the peak of its development, it provides a powerful intuition

#### VITALITY QUOTIENT

It represents volition, discipline, and the ability to keep promises and implement plans

### RESULTS OF COMPLETING THE PROGRAM

1

High ability for learning, effective planning, and creating conditions for promising partnerships. Cognitive flexibility and high concentration of attention

2

A broader range of emotions allows for choosing the most constructive and effective emotional response at any given moment

3

Ability to fulfill promises, plan and act according to the set plan

4

Hard work, persistence, goal-oriented mindset, and skill to harmoniously integrate into a team

5

Self-motivation. Calm and confident career advancement
